A new beginning for the era of artificial intelligence, the AI Basic Law passes the National Assembly plenary session 2025-02-05T17:02:27+09:00 2024.12.26 | Report |

Post Views: 649

- Scheduled to be implemented in January 1 after a one-year grace period following a Cabinet meeting resolution early next year

– △Establishment of a promotion system including the National Artificial Intelligence Commission and the Artificial Intelligence Safety Research Institute, △Support for fostering the artificial intelligence industry including research and development, learning data, and artificial intelligence data centers, △Establishment of a trust foundation for high-impact artificial intelligence and generative artificial intelligence

Ministry of Science and ICT (Minister Yoo Sang-im, hereinafter referred to as 'MSIT') " Artificial Intelligence Development and Trust base Basic Law on Composition, etc. (hereinafter referred to as the 'Basic AI Act') " Bill 012 월 26 일 (neck) National Assembly plenary session in Resolution said it was

Artificial intelligence goes beyond technology the economy of the country · Security is in control insomuch as Importance swell Depending on the Leading countries are desperate to innovate in AI and build international AI leadership I'm betting In my own country Favorable norms of prepared * is being done. Our country is also doing this. Increase national artificial intelligence competitiveness , Trustworthy Artificial Intelligence Utilization-based Furtherance for someone Basic law is needed consensus under Domestic economy · four Considering the social conditions So it's the second in the world A.I Promoting the enactment of basic laws It was.

* (US) Artificial Intelligence Executive Order goes into effect (October 23), (EU) Artificial Intelligence Act enacted (June 24.6)

A.I The basic law is 'Since the bill was first proposed in the National Assembly in July 20.7, 4 Over years 기간 during Collecting various opinions Argument As per the bill, 22 The National Assembly reached an agreement between the ruling and opposition parties Via 19 Dog bill * Merge and, over-orientation ('24.11.26), Judiciary Committee ('24.12.17) through plenary session It was decided on ('24.12.26).

This bill A.I To about National level cooperation (Governance) Establish a system and, art The intelligent industry Systematically nurtured And, it can be caused by artificial intelligence. danger of Prevention in advance It consists of the following contents, and the main contents are as follows.

❶ country AI Building a foundation for development and trust for someone Propulsion system prepared

The Minister of MSIT will collect opinions from relevant ministries and local governments to strengthen the nation's artificial intelligence competitiveness. Artificial Intelligence Basic Plan of 3 Established annually · enforcement (Article 6) It can be done. In addition, launched in September last year National Artificial Intelligence Commission (Chairman: President) Operation legal lay the groundwork (Article 7) and any problems that may arise in relation to artificial intelligence. danger from The lives of the people · body · Protect property, etc. As a specialized institution for this purpose A.I Safety Research Institute's Operating Basis (Article 12) was established.

❷ Artificial Intelligence Research and Development , Data for learning , Artificial Intelligence Data Center , Integrated complexes, etc. Support for fostering artificial intelligence industry

Research and development for fostering artificial intelligence industry 지원 (Article 13) standardization (Article 14) Data for learning Policy formulation (Article 15) Introduction of artificial intelligence · Utilization Support (Article 16) The basis for government support was established. In addition, A.I Designation of integrated complex (Article 23) A.I Data Center Policy propel (Article 25) A.I Facilitating convergence (Article 19) Through etc. Artificial Intelligence Ecosystem of Korea of Innovative development We wanted to support, A.I Securing professional manpower (Article 21) Special support for small and medium-sized enterprises (Article 17) Startup activation (Article 18) etc. The era of artificial intelligence Nurturing leading talents and small and medium-sized enterprises · Startup It also stipulates matters to promote growth.

③ High-impact artificial intelligence · Generative artificial intelligence For safety · Building a foundation of trust

A.I of Technical limitations , Five · abuse Because of the back Possible Problems 를 In advance prevention in order to Defining High-Impact AI and Generative AI as Regulatory Objects and, transparency secure duty (Article 31) Obligation to ensure safety (Article 32) Business Responsibilities (Article 34) was stipulated. In addition, Private sector autonomy Artificial intelligence driven by the enemy Safety · Reliability knife · Verification (Article 30) Artificial Intelligence Impact Assessment (Article 35) The basis for government support Put together It was.

The “AI Basic Law” State Council Resolution And After the horror 1 The period of time in years After placing ' 26 년 1 Effective from month It is expected that the government will The law is quickly settling into the market. So that Sub-statutes · guideline (guideline) prepared Etc Follow-up measures will also be implemented early ('25. Top) is planned.

Paid Minister of MSIT silver " Strengthening national artificial intelligence competitiveness “I think it is very meaningful that the National Assembly has passed the Basic Act on Artificial Intelligence, which will serve as the foundation for the future,” he said. Surrounding artificial intelligence cutthroat 국제 compete inside A.I Enactment of Basic Law 을 통해 The uncertainty of the company solution and, Civil and government Facilitating large-scale investment etc. Our country is truly The world of artificial intelligence 3 To a great power An important milestone has been set for us to leap forward. He emphasized that "it has become possible."

Also, “ A.I Enactment of the Basic Law is not the end, but the beginning ” and “ Close communication with the field 을 통해 Enactment of subordinate statutes 과 Establishment of various industrial support policies of Proceed with speed Go out, National Artificial Intelligence Computing Base Build as soon as possible We will do our best to make it happen,” he said.
